

# Price List 2009

This is the price list of services for 1st January, 2009 to 31st March, 2009.

## Levels of service

Three services offered, Stress, Culture or Combined. Single pricing structure

Service	Description
Stress	A stress survey which incorporates a BMA approved personal stress survey and can also report against HSE stress indicators. Full reporting including identification of hotspots, risk sectors and factors. Further assistance can be given in the formation of an action plan
Culture & Ethos	A survey, tailored to your operation, which looks at the culture and ethos of the workforce. Reporting includes identification of hotspots and problem areas.
Combined	Full stress and culture survey and reporting

## Pricing structure

There are two cost elements to the survey, a base cost for each survey type, and a cost per user

Survey	Base cost	cost per head
Stress / Culture	£500	£5
Culture & Ethos	£600	£5
Combined	£900	£10

So as an example, if you have 30 staff, the cost of a stress survey would be:

$$£500 \text{ base cost} + (30 \text{ people} \times £5) = £650$$

For a combined survey for 80 staff, the cost would be:

$$£900 \text{ base cost} + (80 \text{ people} \times £10) = £1,700$$

## Qualifications

- Prices are valid for the dates specified, and are for a standard service only. The binding price will be provided in a written quotation to the client.
- Where a survey is required for less than 20 persons, a minimum charge equivalent to 20 persons will be applied.
- Costs are exclusive of VAT.
